Vinpearl Water Park, Nha Trang, VN

This Vietnamese water park, opened in 2007 (we reported in EAP issue 4/2008), belongs to the 200,000-square meter large complex of Vinpearl Amusement Park that offers a range of leisure activities like shopping, gastronomy, accommodation, entertainment and water fun. Vinpearl Water Park with an area of 60,000 square meters was designed and installed by Polin. In 2011, the water park will expand with a series of new water attractions: the Turkish company installs the first and single RTM manufactured family slide for four to six guests per raft. A Family Turbolance water slide from Polin's extreme slides for four to eight passengers per boat and a Surf Stream, an artificial surf machine from American Wave Machines, will cater for a lot of fun.
