**POLIN BOWL SLIDE:** Polin Waterparks and Pool Systems has installed its latest bowl ride for speed racing at the South Australian Aquatic and Leisure Center, shown here. Called "Space Hole," it features three different sliding sensations for riders: First is the excitement of an enclosed flume slide; second is the thrill of exiting into a huge open bowl that riders swirl around several times; and last is a big splash into the "hole." The ride starts from atop a 50-foot-tall tower and has 243 feet of slide that lead to the bowl.
