And more!

POLIN Waterparks and Pool Systems is proud to announce the launch of its patent pending waterslide, KING COBRA. KING COBRA is a gorgeous waterslide that offers one of the most “intense” riding experiences of the industry while proving itself as the number one attraction in terms of visual impact and spectator appeal. It creates a truly different experience both for the riders and for the spectators. With its unique design configuration, fiberglass theming, coloring and its unique riding path, it will surely be the most attractive attraction in your park.

The core feature of the patent pending KING COBRA is its unique configuration that enables 2 double tubes racing through a circular path with twists, turns, surprises and experiencing the drop of their lives still racing and entering into the valley part together at the same time with a heart pounding influence.
