Polin appoints new development manager

FOLLOWING a strategic reorganisation, Polin Waterparks and Pool Systems has appointed Volkan Sofuoglu to its management team.

Sofuoglu (pictured below) will head the newly created technical operations and after-sales department at Turkey-based Polin. He previously served as head of the project management and installation divisions at ThyssenKrupp Elevator and Escalator, a division of ThyssenKrupp AG, a German multi-national conglomerate corporation.

In his new position at Polin, Sofuoglu will manage three departments now housed under one umbrella. Those areas - project management, engineering and installation and after-sales - were consolidated after the company's recent reorganisation effort.
